

# SP Series

## CABLE-ACTUATED POSITION SENSORS

- Up to 50" (1270 mm) Linear Measurement Range
- Fits in Tight Spaces • Handy Mounting Bracket
- Polycarbonate Enclosure • Free Release Tolerant
- **In Stock for Fast Delivery!**

This economically priced, high value stringpot is the perfect solution for both the OEM and single piece user alike. Constructed with a rugged polycarbonate enclosure and free-release tolerant measuring cable, this in-stock stringpot provides full stroke measurement ranges up to 50 inches.

This series comes in 4 different models: the SP1 and SP2 offer a voltage divider output while the SP3 and SPD provide user selectable 4-20mA and 0-10 Vdc output signals. All models are in stock for quick delivery!
